

PROJECT

This department welcomes brief notes and article-length manuscripts. The former may include announcements of contemplated ongoing projects, information on doctoral theses in progress or completed (writer, title, institution, supervisor, and available information on completion time), proposals and questions, and requests for assistance. Announcements of individual research projects, including theses, are very important to avoid awkward and wasteful duplication of effort. Articles will ordinarily describe projected, in progress, or completed large-scale projects involving one or several scholars and should follow the same standards as other articles.

Kurt Gödel's Collected Works

The Gödel Editorial Project is soliciting letters of scientific interest to or from Kurt Gödel to be considered for inclusion in Vol. IV of Gödel's *Collected Works*. We are aware of manuscript holdings at the Library of Congress (especially the papers of Oswald Veblen, John von Neumann, Abraham Flexner, and Robert Oppenheimer), the Institute for Advanced Study and Princeton University (Gödel's Nachlaß), the University of California at Berkeley (Alfred Tarski's papers), Duke University (Oskar Morgenstern's papers), the University of Pittsburgh (Vienna Circle collections), the E.T.H. (Paul Bernays's papers), the Staatsbibliothek zu Berlin Preußischer Kulturbesitz (Gotthard Günther's papers), and the Heyting Archief in Enschede. We are particularly interested in letters in lesser-known collections or in private hands.

Please direct information to Professor John Dawson, Penn State York, 1031 Edgecomb Avenue, York, PA 17403 (e-mail: jwd7@psuvm.psu.edu; FAX: (717) 771-4062).
